

Principles of Emergency Management

Course Outline

2235:305

Course Information:

Course Name: Principles of Emergency Management
Course Number: (0 + 6:305:001 (T,TH 12:15-1:30in Polsky
Credits: 223) 3 credit hours

Pre-requisites : This is a Junior level required course for the Emergency Management and Homeland Security Bachelors Degree. It is highly recommended that you have a degree in Fire Protection, Environmental H&S or Criminal Justice before beginning these courses.

Course Description:

It is impossible for today's EMHS personnel to do an effective job without understanding the changing expectations of society and the affect this has had on the roles. Only by comparing and contrasting historical versus contemporary disasters can today's personnel understand how our culture is increasing the impact of disasters and causing dependence on a thinking, resourceful knowledgeable disaster manager.

Program Outcomes:

- x Produce a hazard analysis
- x Identify the structure of E.M.
- x Identify the important figures in the EM process
- x Apply the four phases of EM
- x Identify and explain the four phases of EM
- x Classify disasters based on their characteristics
- x Assess the resource impacts of various disasters
- x Explain the role of FEMA
- x Identify LEPC characteristics
- x Explain the importance and function of an EOC
- x Identify disaster declaration criteria
- x
